Can the Right to a healthy environment contribute to achieve the right to access water? The case of Colombia

Jimena Murillo Chávarro
Overview

1. Sustainable development and water.
2. Emerging HR to access safe water.
3. HR to a healthy environment
4. The case of Colombia
5. Conclusions.
Sustainable development

Social development (human well-being)

Economic development

Environmental protection

Human well-being

- Access to drinking water commitment of UNCSD.

*Agenda 21: The general objective to make certain that adequate supplies of water of good quality are maintained for the entire population of this planet”.

*MDG: halve by 2015 the proportion of people without access to drinking water.

*Johannesburg Action Plan
A World of Salt
Total Global Saltwater and Freshwater Estimates

Saltwater
97.5%
1 365 000 000 km³

Freshwater
2.5%
35 000 000 km³

- 0.3% Lakes and river storage
- 30.8% Groundwater, including soil moisture, swamp water and permafrost
- 68.9% Glaciers and permanent snow cover

WATER

• Common denominator in all challenges of sustainable development:
  - Energy, industry
  - Food
  - Poverty eradication
  - Human consumption
Emerging R. to access safe water

• Everyone is entitled to sufficient, safe, acceptable, physically accessible and affordable water for personal and domestic uses.

• Water must be free from micro-organisms, chemical substance and radiological hazards that constitute a threat to a person’s health.
Emerging R. to access safe water

• Water resources must be protected to guarantee this rights, for instance from pollution and overexploitation.

Jimena Murillo Chávarro - Ghent University – Department of Public International Law
IUCN 10th Colloquium, Baltimore July 2012
Emerging R. to access safe water.

- Problem:
  R. to access water  No universally recognized
Emerging R. to access safe water.

-Problem:
R. to access water → No universally recognized

-Solution:
Use existing human Rs. → to protect access to safe water

Jimena Murillo Chávarro - Ghent University – Department of Public International Law
IUCN 10th Colloquium, Baltimore July 2012
Human rights are interconnected

- R. to access
- R. to life
- R. to food
- R. to health
- R. to adequate
- R. to safe water
- R. to standard of living

Jimena Murillo Chávarro  -Ghent University  – Department of Public International Law

Human rights are interconnected

R. to life
R. to food
R. to health
R. to adequate standard of living
R. to a healthy environment

R. to access safe water
Right to a healthy environment

• To live in an environment of a quality that permits a life of dignity and well-being

• This human right Protects:
  - Soil
  - Air
  - Water
  - avoids noise and visual contamination.
Right to a healthy environment.

- Resolution 45/94 UNGA: “all individuals are entitled to live in an environment adequate for their health and well-being”.

- Regional recognition, e.g San Salvador protocol in the Americas.

- Enshrined in National Constitutions.
WHAT IS THE SITUATION IN COLOMBIA?
# The Case of Colombia

## Constitutional Human Rights

- **Fundamental Rights** (R. to life)
- **Collective Rights** (R. to a healthy environment)
- Link between fundamental R. and R. healthy environment (*rule of connection*)

## Judicial Action

- Tutela action (fast and priority mechanism. Constitutional Court.)
- Popular action (group action/Council of State)
- Tutela action

IUCN 10th Colloquium, Baltimore July 2012
The case of Colombia

• Right to a healthy environment explicit in the Constitution

• Right to access safe water No explicitly recognised.

Jimena Murillo Chávarro - Ghent University – Department of Public International Law
IUCN 10th Colloquium, Baltimore July 2012
Popular action cases

-Polluted water was distributed through the water supply directly to homes of the inhabitants of Fortalecillas, without any treatment.

-Thus, water provided to inhabitants was Not suitable for human consumption.

-CS granted protection of R. healthy environment and access to public services.

-CS order the municipality take necessary measure to guarantee potable water and treatment to sewage that were contaminating the water & preserve biodiversity of river.
Popular action cases

2. Diana Pineda Vs Corporacion Autonoma regional del valle del Cauca CVC (Appeal before CS)

-Due to the omission of some works the sewage system of the city was discharging waste into the San Jose River, polluting the water & the atmosphere.

-San Jose River flows into another river. The water of this river was used as source for the water network supply for another village.
Popular action cases

-Other discharges in the river were also coming from houses located along the river.

-CS granted R. healthy environment. It order to clean the river, invest resources in potable water and sanitation and start educational programmes.
Tutela action cases

1. Jorge Gomez Vs Mayor of Versalles & others.

- Plaintiff alleged inhabitants of Versalles municipality were affected by the supply of polluted water to homes.
- Physical, chemical, bacteriological apt for human consumption.
- The Court says “the supply of polluted water that is not acceptable for human consumptions constitute a risk and a violation of the fundamental right to life, dignity, health and a healthy environment”.
Without water there is no life. Therefore, the residential public service of water supply aims at meeting the basic needs of people, which request the provision of safe water for human consumption.

Drinking water constitutes a fundamental right that is part of the core elements of the right to a dignified life, when intended for direct human consumption (T-888 of 2008, Constitutional Court. Nicolas Contreras Hernandez vs Proactiva Aguas de Monteria S.A E.S.P.0)

Jimena Murillo Chávarro - Ghent University – Department of Public International Law
IUCN 10th Colloquium, Baltimore July 2012
Conclusions

• Water contamination affects R. healthy environment and R. to access water.

• *R. healthy environment (popular action or tutela) contributes in the protection of water resources & also in the achievement of the R. to access water.*

• Constitutional Court acknowledges R. to access water is part of the core elements of other HR.

• Water supply to homes must be safe for human consumption.
Thank you for your attention!
